Job Description:

This is an entry level position. The person in this position will learn how to assist with the install of electrical systems in new construction, upfit and remodel projects. This position will work under the supervision of a crew leader or foreman and provide assistance to the mechanic he/she is assigned to work with. This position will require oversight and guidance. Tasks which are expected to be performed include but are not limited to:

Must be well organized, able to work efficiently and demonstrate good time management skills

Maintain a clean clear work environment

Maintain organized tool and material gang box

Assist with tool and equipment accountability

Demonstrate a willingness to learn how to measure, bend and install electrical conduit to include EMT and MC

Assist with the proper setup for wire install, pulling wire and operating wire tuggers

Demonstrate a willingness to learn how to set fixtures and install devices

Willing to learn how to interpret and understand job drawings

Ability to achieve the weekly benchmark objectives established by the foreman

Ensure safe work practices and maintain a safe work environment for all personnel.

Utilize all assigned PPE as appropriate for the hazards encountered

Maintain a positive work environment which promotes a culture of safety and open communication

Qualifications:

Must be 18 years of age prior to beginning the program

Provide a High School Diploma or General Educational Development (GED equivalency)

Pass a screen for Illegal Drugs upon acceptance into the program and prior to being employed

Submit to a Criminal and Driving Records check upon acceptance into the program and prior to being employed

Physical Requirements

This position should be able to sit, bend, stoop and lift items not to exceed 50 pounds. This position should also be able to climb, crawl and squat as the job demands.
