Job Description:

We are a four-year electrical apprenticeship program that offers tuition-free classes and paid on-the-job training throughout the course of the program. All training assignments are full-time, and are centered in commercial and industrial work and training. All student apprentices are given wage and responsibility increases as they progress in the program.

Qualifications:

No previous experience is needed to apply, though special consideration is given to those who successfully complete Hope Renovation's pre-apprenticeship program. Most people who wish to be an electrician like working with their hands and being physically active, don't mind working outside, enjoy variety in their work, and are not interested in a typical 9-to-5 office assignment.
